STRICTLY WHOLESALE

NOVEMBER 1927

This list supersedes all previous lists.

All offers are subject to prior sale, shortage or failure of crops, or other causes beyond our control. We give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any plants, roots or shrubs sent out.

While we take great care in not booking more orders than our stock warrants, we reserve the right to pro-rate all orders if at the time of digging we find shortages do exist.

Roses.

Pink Grootendorst, (Hybrid Rugosa), a variety similar in every way to the well known F. J. Grootendorst, except that Pink Grootendorst flowers with beautiful clear pink clusters; they cover the plants during the whole flowering season. The individual flowers are also somewhat larger and beautifully fringed. It is absolutely hardy and, in combination with the red Grootendorst will be largely used for planting in masses or between shrubbery in borders.

Fine plants, grafted on multiflora per 100 \$ 75.00

Half Standard Roses.

Half Standard Roses are excellent material for small gardens. Orleans is the hardiest of all and needs very little winter protection.

We draw the attention of our customers and friends to the increased facilities to reach our nurseries. Two companies are running comfortable buses from Philadelphia to Bridgeton via the splendid Delaware River Bridge. In total 16 buses leave Philadelpeia every day of the week. They pass our nurseries which are situated about ½ mile South of Deerfield; tell the driver to let you off at the nurseries.
